

PhySIIIG Airway Clearance Techniques Instructor Accreditation Training Course,
Glasgow, United Kingdom – 4-5 June 2024

PhySIIIG are running a training course for Airway Clearance Techniques (ACT) Instructor accreditation to be run at the beginning of the ECFS Conference in Glasgow, Scotland on the Tuesday 4th and Wednesday 5th June, 2024.

- A maximum of up to twenty places will be available spread geographically across the world
- The course will be run in English
- Applicants should be committing themselves to at least five years working in this patient population and running training sessions

Pre-requisites:

1. Details of Physiotherapy training, qualification details and year of graduation
2. Evidence of training at a qualified Basic Airway Clearance Techniques Course at least five years previously – specify training course and instructors
3. At least five years experience using techniques with patients with cystic fibrosis and bronchiectasis; provide details of particular techniques used
4. A description where these techniques will be used and taught in the future (including Medical Institutions, Universities etc.)
5. Ability to pay the course application fee of Euro 350 to cover course running expenses

Application Process:

Please send a current curriculum vitae and details supporting the above five pre-requisites to Brenda Button, PhySIIIG Board Member and Course Convenor at the following email address: b.button@alfred.org.au

Closing date: 14 February 2024
