

CF Patient Association Telehealth Survey

On behalf of the ECFS Telehealth for CF (THCF) Working Group, we kindly invite all CF Patient Associations to participate in our survey titled: *“Understanding telehealth implementation for cystic fibrosis care: A survey modelled on iCHECK”*.

The main aim of the THCF is to develop best practice guidelines for using telehealth as part of CF care. This survey seeks to learn more about CF Patient Associations role in the implementation of telehealth within CF care.

Your participation in this survey is voluntary, but we would greatly appreciate your insight and time in completing this survey. The survey will take between 8-10 minutes each.

An information leaflet, consent form, and the survey itself [is available by clicking here](#).

If you have any questions, please do not hesitate to contact Dr Tamara Vagg at tamara.vagg@ucc.ie.

On behalf of the THCF we would like to thank you for your time and input.

A graphic with a blue background featuring a pattern of overlapping circles. On the left, a white rectangular box contains the text 'SURVEY INVITATION CF PATIENT ASSOCIATIONS: TELEHEALTH & CF' in pink. Below this text is a QR code. On the right, the THCF logo is displayed, consisting of a world map icon and the letters 'THCF'. Below the logo, the text 'Help us learn more about the role CF Patient Associations have in the implementation of Telehealth within CF.' is written in blue. Further down, it says 'Open to all CF Patient Associations.' in blue. At the bottom right, it says 'Click the above link or scan the QR code to learn more.' in blue, followed by the ECFS logo, which includes the letters 'ecfs' and several small stars.

**SURVEY INVITATION
CF PATIENT ASSOCIATIONS:
TELEHEALTH & CF**
