Slovenia: 2 mil.

CF population: app.110

The average age of adults CF pat.: 31 y.

Managing CF patients

- We don't have full or half time employment CF nurse at the moment .
- Head of our dep. and a nurse director have sent a program for managing CF patients to Ministry of Health and Health Insurance Inst. – in purpose to create a CF&LUTX team
- Clinical pathway (document): Transition and transfer of patients who have cystic fibrosis to adult care.
- Autumn 2016: new renovated department (new rooms for CF, LUTX patients).

Excellent cooperation with CF Assosiation of Slovenia

- CF Association achievements → Health Insurance cover medications for CF, food supplements, medical devices, rehabilitation in health centre...
- As soon as possible → case manager for rare diseases
