

COVID-19 IN PEOPLE WITH CF IN EUROPE

Data up to 15 November 21

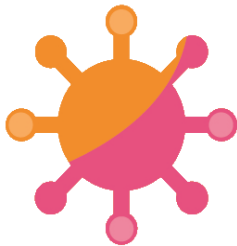

Background

CF patient registries throughout Europe are collecting data about people with CF who become infected with SARS-Cov-2, causing the illness COVID-19.

Here we present a weekly update of centralised, anonymised data from countries who are members of the ECFS Patient Registry (ECFSPR).

These data are preliminary, incomplete, might change over time. Therefore this information should not be used to direct clinical decisions.

Covid-19 in pwCF
