13:50-14:00	Discussion, future challenges	Eddie Landau (IL)

### **Aims/ Objectives:**

At the end of the session, the participant will be able to:

1. Give examples of the ways in which physiotherapists and pharmacists can work together to optimise care
2. Describe ways of optimising team working when prescribing medications such as modulators and inhaled therapy
3. Identify how to use objective adherence data to discuss and plan inhaled therapy for people with CF
4. Describe how the role of a physiotherapist has changed to care for a patient with COVID-19 during the pandemic
5. Justify how important it is that physiotherapists have the opportunity to continue providing the best possible care, despite not having face-to-face contact with the patient

### **Target audience:**

All members of the multi-disciplinary team including doctors, nurses, dietitians, physiotherapists, psychologists, social workers etc.

The webinar will be recorded and available on the [ECFS Education Platform](#) afterwards for ECFS members.
