## Live Virtual Roundtable:

Monday 2 October 2017 at 8:00PM UTC | 9:00PM BST | 4:00PM EDT

Tuesday 3 October 2017 at 7:00AM AEDT

## Faculty

John P. Clancy, MD

Kevin W. Southern,  
MBChB, MRCP, FRCPCH, PhD

Sarath Ranganathan,  
MBChB, MRCP,  
FRCPCH, FRACP, PhD

## Credits

Credits: 1.5 AMA PRA Category 1 Credits™; 1.5 Nursing Contact Hours provided by Elsevier;

Application has been submitted to EACCME

## Program Overview

This live webinar is a roundtable discussion between three international expert faculty in cystic fibrosis (CF). This expert faculty will discuss the role of aerosolized agents for improving airway clearance, including caveats from their own extensive clinical experience in managing patients with this condition. The faculty will also deliberate on strategies to improve patient adherence to aerosolized CF therapies in a case study based format. The discussions at the webinar will support participants in clinical decision making as well as in helping their patients achieve optimal benefit through adherence to their aerosolized CF therapies for airway clearance.
