2. Planning
 - a. sharing of samples between labs to define 'normal' response and thresholds
 - discussion around definition of 'normal' response' and 'minimal threshold'
 - agreed to share amplified cells between labs to explore the issue and explore response thresholds
 - Valeria: has results from n=40 to 50 cohort: variability
 - Agreed to share:
 - a. F508del x3 (x1 at basal state; x2 ETI)
 - b. WT x3 (x1 at basal state; x2 ETI)
 - c. CFRD x3 (x1 at basal state; x2 ETI)
 - Shafagh can ship samples from Australia as can Germany, but this may be an issue for Italian sites re ethical approval to allow sharing of samples (consent required)
 - b. Ussing Chamber Training – Valeria and Emanuela (Nicoletta's lab) will share dates of available training slots with Kate who will circulate to the group list. Please contact Kate at kate.hill@qub.ac.uk if you would like to be added to the waiting list for Ussing Chamber Training at Nicoletta's lab in Genoa
 - c. Other:

Shafagh raised the issue of new media by StemCell which we need to test and may require an amendment to the SOP: Shafagh to provide details
