

## **Assistant / Associate professor in Biochemistry, Molecular Cell Biology or a related field**

### **Job description**

The [Cellular Protein Chemistry](#) section is seeking applications for a permanent faculty member to strengthen and broaden its research focus. You are expected to start or bring an independent but complementary research line to the groups of Ineke Braakman & Peter van der Sluijs and Stefan Rüdiger, funded mostly by external support. CPC is part of the [Bijvoet Centre for Biomolecular Research](#) and as such the research should be directed at the molecular level. Teaching and administrative duties, fitting with the candidate's profile, will be part of the job description. The Bijvoet centre is part of the [Faculty of Science](#) and the [Science for Life](#) programme of Utrecht University. On campus you will find a [University Medical Centre](#) and several companies and research institutes.

### **Qualifications**

We ask that you have a PhD and at least two years of postdoctoral research experience with a strong track record. You will be encouraged to seek funding for new research projects through personal and collaborative, national, European and other international grant opportunities. You also have the ambition to actively participate in teaching activities at both the BSc and MSc levels.

### **Offer**

- a fulltime position for 5 years, which will become permanent upon positive evaluation
- salary, employment benefits and conditions based on the Collective Labour Agreement Dutch Universities.

More information about working at the Faculty of Science can be found [here](#).

### **Apply**

Please apply [here](#) before 31-07-2021:

- your concise motivation letter;
- your curriculum vitae including research and teaching accomplishments;
- your research plans (1 page max)
- names of two colleagues who agreed to send reference letters directly to [i.braakman@uu.nl](mailto:i.braakman@uu.nl)

Selection of candidates and interviews will start three weeks after publication of this advert. We welcome employees with a wide variety of backgrounds and perspectives. If this specific opportunity is not for you, but you know someone else who may be interested, please forward this vacancy to them.
