Dear Mrs. Dubois,

herewith I would like to nominate Prof. Dr. Marcus Mall to serve for a second term on the ECFS Board. Dr. Mall is a proficient scientist-physician with outstanding expertise in CF. During the last five years Dr. Mall and his team have published more than 60 peer-reviewed papers that reflect Dr. Mall's wide-ranging knowledge and interest in CF which cover both basic and clinical research as well as clinical care. His on-going major projects deal with

- mechanisms and treatment of infection and inflammation in CF airways,
- development of biomarkers for CFTR modulators,
- search and clinical validation of drug targets in CF other than CFTR,
- initiation of the first comprehensive CF newborn screening program in Germany,
- development and validation of imaging and lung function modalities for infants and young children with CF,
- execution of the first clinical trial in CF infants.

In summary, ECFS will continue to benefit from having Marcus Mall on the board who is a proficient researcher and dedicated physician with thorough knowledge on virtually all aspects of CF.

Kind regards.

Burkhard Tümmler, MD PhD

Paris, 30 March 2017

Dear Christine,

I hereby would like to nominate Prof. Marcus Mall for his second term as an ECFS board member.

Prof. Marcus Mall is a well-known figure in the CF community worldwide. He is a paediatrician who has been working in the field of CF for many years. He is also a dedicated scientist with many outstanding publications in basic and clinical research. He has been an active member of the ECFS with many ECFS commitments, including recent chairing of the ECFS Basic Science Conference.

He has applied his expertise and skills during his first ECFS mandate to strengthen and develop the Society. A second mandate will allow him to continue fostering ECFS missions across Europe.

Kind regards,

Isabelle FAJAC
